SAFEX TECHNOLOGIES
CREATE THE CHANGE FOR BETTER

SAFEX TECHNOLOGIES an emerging Design and Engineering house focused on Integrated Building Solutions. We have been catering to various technological demands of clients, enabling them to achieve their business goals through innovative design and engineering excellence. SAFEX TECHNOLOGIES has a very efficient sales and service support which is serving the requirements of the customers from major industries such as Hospitality, Pharma, Infrastructure and Government Sector.

SAFEX TECHNOLOGIES conduct marketing as well as consulting in the field of Integrated Building Solutions. Based on comprehensive application knowledge, we create value for building users, installers, end customers etc. by bundling our broad innovative product portfolio into solution packages. We develop and deliver building solutions tailored to customer’s specific needs and provide services ensuring optimal building performance and the lowest total cost of ownership. We also help customers reduce their building’s energy costs and improve reliability.

Company Strategy

Purpose

To be a pioneer by providing enhanced services, Innovative Solution to our esteemed customers with collaborative approach of working.

Vision

To provide quality services and deliveries that exceeds the expectations of our esteemed customers.

Mission

To Build long term relationships with our customers and clients and provide exceptional customer services by pursuing business through innovation and advanced technology.

Core Values

We believe in treating our customers with respect and faith. We grow through creativity, invention and innovation. We integrate honesty, integrity and business ethics into all aspects of our business functioning and interested parties.

Company Strategy

Goals

Continual expansion in the field of Integrated Building Solution and develop a strong base of key customers. Increase the market reach in order to support the customers with innovative ideas based on their needs.

Principles

Continually work on process innovations integrating the business solutions with the customer requirements

Our Services and Offerings

Building Management System

Partnering with leading manufacturers providing services that are uniquely qualified to help customers prioritize and implement strategies that will

- Lower energy costs resulting from intelligent energy management and energy saving functions
- Long-term investment protection due to maximum flexibility
- Higher efficiency with lower maintenance effort
- Reliability and longevity

Fire Alarm Systems

A complete reliable range of products and solutions for accurate notification of fire detection in our offerings covers both

- Conventional
- Addressable

HVAC Control Products

Dealing in the leading brands of Industry with complete range of

- Thermostats
- Sensors
- Valves and Actuators
- Variable Speed Drives
- BTU Meters
- Damper Actuators
- Standalone Controllers
- Energy Meters

Our Services and Offerings

Public Address and Voice Alarm System

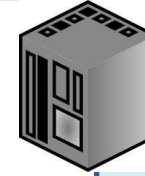

With wide range of announcement and music combination, we offer highly flexible, powerful and distributed PAVA system. Special features, like smooth frequency response, high power handling with overload protection and a fit solution for low ceiling installation, make these ceiling loudspeakers suitable for all application areas.

Electronic Security & Access control

Technology allows Security Personnel to use video verification for confirmation of alarms and other events as they occur within the Inner Range Access Control / Security System. We offer complete range of card reader technologies:

- Keypad based
- Proximity / Smart Card
- Fingerprint
- Iris Scan
- Palm Geometry

Programmable Logic Controller

With extensive range of controllers, we offer right and innovative solution for each application. These controllers are specially designed to survive in harsh situations and shielded from heat, cold, dust, and moisture etc. **PLC** consists of a microprocessor which is programmed using the computer language.

Letter of appreciation

We would like to express our appreciation to Mr. Saini at Safex Technologies for providing us excellent service and helping us with the commissioning of works for CDHB, New Zealand, project.

We realize how much time and effort Mr. Saini invested to not only get the project done, but to ensure our client is satisfied with the outcome.

We truly appreciate Mr. Saini's contributions.

Kind regards

Subject: Completion of BMS work at C A Jammu –Reg.

Dear Mr. Aman Saini,

I am very thankful to you and your team who had put their sincere efforts after your deputation by Seimens through Blue Star Ltd for carrying out the left over work and operationalization of the BMS system installed at C A Jammu. I would also like to extend appreciation towards the successful completion of Building Management System at Airports Authority of India –CA Jammu with great efficacy. The fact and figures presented by you in the completion of this project is truly commendable. I really appreciate your efforts and the professionalism shown to operationalize the BMS system.

I once again would like to thank you and congratulate you for your hard work and dedication. I wish that you will continue the same spirit and cooperation in future also.

Wishing you all the best.

With Regards,
